

ENVIRONMENTAL POLICY EMS-POL-001

Pro-Built Control is committed to a clean, healthy and ecologically sustainable environment. As such, the Company recognises its responsibility to conduct all of its operations in a way which will minimise and reduce the impact on the environment and its natural resources. Pro-Built Control is dedicated to the conservation of natural resources through energy and water consumption strategies. This environmental obligation is the responsibility of managers, Site Supervisors and employees at every level of the company and will be achieved through the following key objectives.

- Comply and exceed the requirements of all applicable laws, regulations and standards. Where adequate laws do not exist, we will adopt and apply standards that reflect this commitment.
- In the event that there is a difference between legislation, code of practice, guidance material whether it be state or federal or international the higher of the two standards shall be used.
- Communicate openly with all regulatory bodies and stakeholders to resolve issues and ensure the development of an informed and balanced view of our activities.
- Ensure management are actively involved and provide demonstrated leadership to support continuous improvement in environmental performance.
- Communicate and consult with all employees (and others), to increase their awareness of their environmental obligations and responsibilities.
- Strive to continuously improve our environmental management systems and practices through a process of auditing, review and revision (ISO 14001).
- Investigate and ensure a prompt response to all work-related environmental incidents and develop corrective action to prevent recurrence.
- Seek to prevent pollution before it is produced, reduce the amount of waste at our operations and support pollution prevention by our customers and suppliers.
- Adopt best available practices for the reduction of emissions to air, water and land, and for the conservation of water and energy.
- This signed policy confirms our personal commitment to minimising and reducing the environmental impact of our operations to ensure that we achieve corporate responsibility, statutory compliance, due diligence and meet and exceed community expectations.

Environmental awareness is everyone's responsibility.

ENVIRONMENTAL POLICY EMS-POL-001

### **Summary of Systematic Approach to Environmental, Waste Management and Minimisation**

1. Identify and conform to legislative requirements pertaining to our industry
2. Consult with the necessary authorities regarding waste disposal
3. Design and implement safe systems of operation
4. Design and implement correct disposal procedures
5. Implement an environmental preventative maintenance program at each work site
6. Implement an employee awareness program

### **Review**

Pro-Built Control shall review this policy every 2 years. Current policies shall remain enforceable until such time as this review has been completed and the policy re-issued.
